

Bill McKee (1989 alumni, Board member 2014-2021)

Bill McKee loved Leadership Golden. As a former City Council member, he was proud of Leadership Golden's contributions to the City's volunteer pool. Graduates from Leadership Golden often went on to serve as volunteers for city Boards and Commissions, City Council, and in the many non-profits that serve the Golden community.

Bill accepts the Living Landmark Award presented to Leadership Golden in 2017, with other members of the Leadership Golden Board of Directors.

After graduating from Leadership Golden in 1989, Bill served on the Board from 2014 to 2021. During his tenure on the Board, he championed Leadership Golden's involvement in Colorado Gives Day. In that way and others, he worked closely with the Board Treasurer to maintain the health of the Leadership Golden's financials.

Bill was a staple at most Leadership Golden sessions. Seen here observing orientation.

For every class year, Bill made sure that Leadership Golden's mock City Council session was planned and executed just like the real thing. He worked with the City Clerk to reserve the Council chambers and then made sure the topic debated was one that class council members would have to ponder and then make a decision.

During election season, Leadership Golden always held a candidate forum – where City Council candidates would debate before a live audience, moderated by another former City Council member, Ed Dorsey. Bill took pride in organizing the session and working with the moderator to make the debate a success.

Bill's heart belonged to Leadership Golden. He will be dearly missed.
